

Diaper Drive Check List

Thank you for hosting a diaper drive to benefit The Nappie Project. This is a check list that walks you through the process. The attached full tool kit has many more details, as well as ready-to-use flyers, collection posters and more.

1. Choose a date or dates for the actual collection. Do you want to have a one day drive or collect for a week, a month?
2. Let The Nappie Project know the planned date(s) so we can plan our warehouse accordingly. That also allows us to coordinate diaper delivery date and time with you. You can also choose to wrap your diapers at the end if you wish.
3. Choose a theme for the drive.
4. Consider whether you want to add a competitive element, like the most per classroom or company division.
5. Set a goal for the drive, whether it's a number, poundage, cover a wall, fill a room or some other measure.
6. Determine your collection point(s) and containers.
7. Spread the word about diaper need with your potential donors. We accept and distribute all sizes of diapers, but especially need sizes 4, 5 and 6.
8. Especially for multi-day drives, share your progress, via email, social media posts, a big paper chart, whatever. We'd love your photos as well!
9. If appropriate to your setting, you can also set out a collection jar for those people who forgot to purchase diapers but still want to help.
10. Count those diapers and announce your success! Tally sheets are included in the full Toolkit.
11. Drop off your diapers with us (see step 2) and accept our deep thanks!

Please do not hesitate to contact us with needs, questions, etc. volunteertnp@gmail.com
